VETO OF MAYOR of ordinance requiring that contract approval and funds therefor be approved first by the Board of Aldermen prior to installation of so called 911 Emergency Communications,	137214

October 23, 1930

The Honorable, the Board of Aldermen
City of Somerville
Massachusetts

Gentlemen:

Your Honorable Board has raised some important questions regarding the implementation of the 911 Emergency Communication System. I will attempt to resolve them in this letter.

I have always supported the 911 concept because I feel that the citizens of Somerville would benefit by its implementation. It has been an issue that has been raised many times in the past and in my conversations with many Somerville citizens, I find that they favor the concept. It will increase efficiency, prevent tragedy and save lives; therefore, I feel that we should move towards the implementation date of late November without any further delays.

The departments directly involved in the 911 Emergency Communication System, (Police, Fire, Fire Alarm and CETA) have had several meetings to discuss the system. At these meetings, problems which have resulted from mishandling calls, in other communities, have been discussed and training procedures will be instituted to eliminate cited problems. An addition to the phone system at the Fire Alarm has been added to insure proper handling of all emergency calls. I feel that our meetings have been very beneficial and have resulted towards smooth implementation of the system.

William H. Murray

Document
Number

I realize that your Honorable Board has concerns about the 9H Emergency Communication System: therefore, I have asked the Police Chief, Fire Chief, a representative from Fire Alarm, N» E. Telephone Co., and a representative from CETA to attend the meeting tonight. If any member of your Honorable Board has questions they would like answered, these representatives would be willing to give whatever information they may have.

The cost factor, I realize, is of great concern to your Honorable Board; however, the cost is minimal considering the results we could achieve.

The Honorable, the Board of Aldermen October 23, 1980

The breakdown is as follows:

FY 81

Installation Charge	\$ 721.75
---------------------	-----------

Additional Equipment	2000.00
(Lights for phones at Fire Alarm)	

Total Installation Charge	\$2,721.75
---------------------------	------------

7 months @ 473.02	3,311.14
-------------------	----------

Total Cost	\$6,032.89
------------	------------

FY 82

12 months @ 473.02	\$5,676.24
--------------------	------------

CETA will provide all personnel, with final approval of the Somerville Police Department to staff the positions.

I have decided to veto the 911 Emergency Communication Ordinance approved by your Honorable Board on October 9, 1980. Since cost is not an important factor and a contract is not necessary, I would like to move forward to implement 911 by late November.

Thank you for your cooperation.

Respectfully yours,
Eugene C. Brune
Eugene C. Brune
